What made you decide on an Estrela? \_\_\_\_\_

---

---

*One thing about Estrela's and Livestock Guardian Dogs is that they are bred to bark at potential prey or strangers. Being a working dog they need a job. They are also VERY good fence jumpers. You will need to have secure fencing for your Estrela.*

Do you have secure fencing? \_\_\_\_\_ If so how high/what kind? \_\_\_\_\_

If not do you plan to put fencing in before you receive your puppy? \_\_\_\_\_

---

Do you have a preference between a male or female puppy? \_\_\_\_\_

Are you interested more in long or short hair? \_\_\_\_\_

Do you have a color preference? \_\_\_\_\_

How soon are you looking for a puppy? \_\_\_\_\_

Can you commit to training and socializing your puppy as soon as you get him/her? \_\_\_\_\_

*Puppies can go to their new homes at 10 weeks old, with the understanding that the new owners will work closely with the pup those first 2 weeks especially as that is a crucial time in the puppies social/mental development. We can provide you with resources and training methods we find very useful. And we are always here to help anyway we can.*

Are you interested in showing your Estrela? \_\_\_\_\_

Do you plan to spay/neuter your puppy? \_\_\_\_\_

Do you understand that Old Thyme Acres Estrelas are sold on a no breed contract? Meaning unless under special situations, you cannot breed your Estrela.

\_\_\_\_\_

How many adults are in your household? \_\_\_\_\_ Children? \_\_\_\_\_

Does anyone have allergies to dogs? \_\_\_\_\_

### Nutrition/Wellness

*What we feed our animals is very important to their health. A good dog food can cost a lot of money, but it is vital for the health and wellness of the puppy into adulthood. If you need suggestions or help with how to feed your pup and other holistic tips, please reach out!*
